

Endringer budsjett – ny versjon av Excelerator

Ny versjon av excelerator er installert for excel 2010 i citrix. Dere finner den som egen knapp i menylinjen. Gammelt tillegg for Agresso Excelerator vil ikke fungere mot det nye økonomisystemet.

Det kreves fortsatt innlogging, og det er mulig at dere må legge til Url som i bildet under. Skal i så fall ikke være nødvendig mer enn første gang.

<http://tfk-agrweb/agresso-reportengine/Service.asmx>

A screenshot of a 'Logg inn' (Login) dialog box. The dialog has a title bar with 'Logg inn' and a close button. It contains several input fields and buttons. The 'Bruker navn' (Username) field is filled with 'sysadm'. The 'Klient' (Client) field is filled with 'TF'. The 'Passord' (Password) field is empty and has a red error icon to its right. Below the fields are two buttons: '<< Mindre' and 'Logg inn'. Underneath is a 'Koblingstype' (Connection type) dropdown menu set to 'WebService'. Below that is another dropdown menu set to 'AgressoAuthentication'. The 'Url' field is filled with 'http://tfk-agrweb/agresso-reportengine/Service.asmx'. There are two checkboxes: 'Web server logg' (unchecked) and 'Skrive lager' (unchecked). At the bottom right is a 'Browse...' button.
